

## Size Guide

### HOW TO GET THE BRACELET SIZE:

- 1 Take a narrow strip of paper, a ribbon or a thread.
- 2 Wrap the wrist so that the material sits tightly but does not squeeze it.

- 3 Wrist circumference should be measured a little closer to the hand in a wide place, for example, at the base of the thumb where it comes to contact with the palm.
- 4 Use the pen to mark the point at which the resulting circle closes in.
- 5 Place the thread or strip on a flat surface and measure the resulting segment with a ruler. ✓

SIZE GUIDE

IN ORDER NOT TO MAKE A MISTAKE WITH THE CHOICE OF THE BRACELET SIZE, PAY ATTENTION TO SOME FINER POINTS:

Keep in mind that jewellery looks great on the hand when they do not tighten the hand and are about 1-2 cm larger than the wrist itself.

If you cannot decide the degree of fit that is suitable for you can choose the averaged version, where the wrist is measured together with the thumb pressed to it.
